Title:

Definition:

For #1 and 2, find the domain and range of the relation.

1. $y = \sqrt{x - 4}$

2. $x = -|y|$

3. Find the domain and range of the relation given by the graph.

For #4 and 5, sketch the graph of the relation by plotting points. Give the domain and range.

4. $y = -\frac{1}{2}x^2 + 2$

5. $x = \sqrt{y} - 3$
